

AEG Apple Pie

Double-crust apple pie for the confirmed AEG BE3002420M oven.

8 slices

3 h 05 min

Medium

1 cook

1 ASSUMPTIONS

What I decided for you — override anything here

One round pie
Assumes a 20-22 cm pie dish. For slab pie, use the two-tray card instead.

One cook
The timeline has one person lane; fridge and oven work unattended.

AEG has dial functions
BE3002420M has no numbered programs. Select Conventional Cooking, the two-bar symbol.

Manual apple-pie bake
Manual table supports shelf 1, 180 C, 70-90 min. Use a darker cue than time alone.

Firm tart apples
Soft sweet apples collapse faster. Reduce sugar to 80 g if apples are very sweet.

Baked pie, knife, server

Cool on a heatproof surface before cutting; wait 60 minutes for cleaner slices.

Filling holds in slices.

Apple Pie Build Order

Use this order before baking on AEG Conventional Cooking, shelf 1, 180 C.

Build base, filling, top crust, then bake until bubbling.

⚠ Wash hands and brush after raw egg.

⚠ Refrigerate leftovers after same-day serving.

⚠ Reheat slices until hot throughout.
