 1 cook

1 ASSUMPTIONS

What I decided for you — override anything here

 **Two oven plates**
Interprets plates as two flat oven trays. If they are round plates, use the single-pie card twice.

 **One cook**
The person works alone; mixer, fridge, and oven run as parallel lanes.

 **Fan conversion used**
Manual says reduce 20-40 C versus Conventional. Use 160 C; raise to 170 C if pale.

 **Large shallow slabs**
Assumes about 30 x 40 cm trays. Smaller trays need less filling or thicker baking.

 **AEG has dial functions**
BE3002420M has no numbered programs. Select True Fan Cooking for two levels.

 **Firm tart apples**
Soft apples collapse. Add 10 g starch if they release much juice.

2 REQUIRED

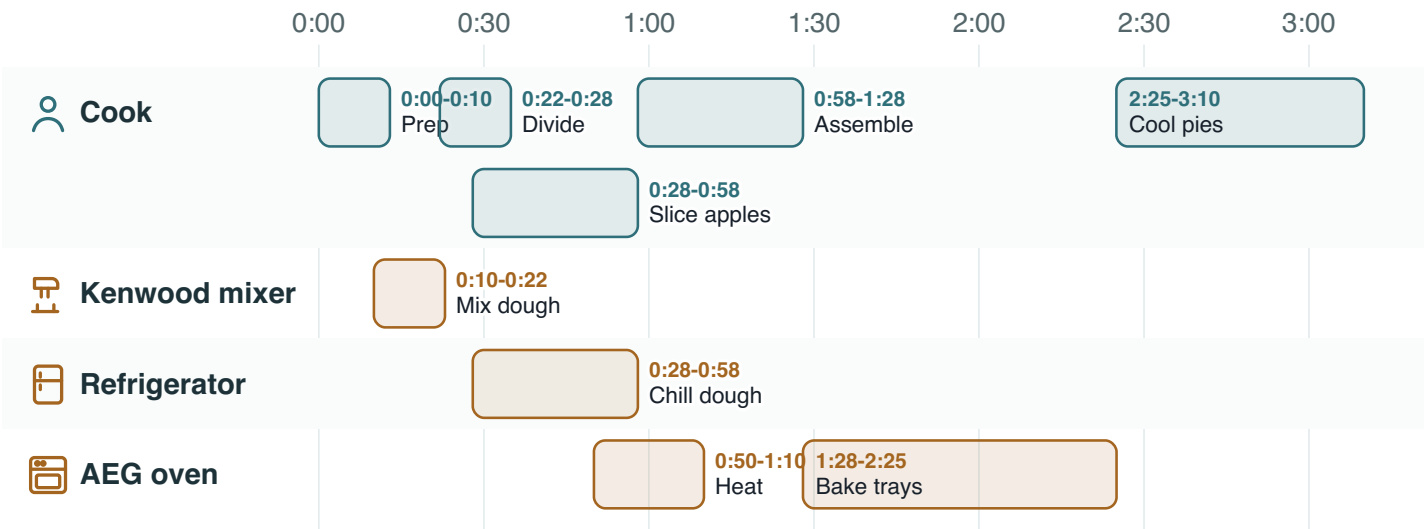

⌚ TIME

 hands-on 1:10

 unattended 2:00

 3 h 10 min

⌚ TIMELINE

🔄 CHECKPOINTS — ALL TRUE BEFORE MOVING ON

 **Oven-ready · 1:28**
Both trays sealed, vented, egg-washed; AEG oven at 160 C.

 **Middle check · 1:55**
Rotate trays if browning differs; continue until juices bubble.

24 pieces

Cool until filling sets, then cut each tray into twelve pieces.

Pieces lift without flooding.

Two-Tray Slab Pie Layers

Repeat this order on both lined oven trays.

Build both trays in the same order before baking.

⚠ Wash hands and brush after raw egg.

⚠ Cool before boxing to avoid soggy crust.

⚠ Refrigerate leftovers after same-day serving.
